Ciduhui: The Visual Atlas of the Porcelain Capital

Scheduled for release in **July 2026**

This ambitious multidisciplinary information design project deconstructs Jingdezhen through five lenses: heritage, porcelain, urban space, architecture, and experience.

Jingdezhen

As the "Porcelain Capital of the World," its influence stretches from imperial courts of the East to the tea tables of Europe, serving as an early node of global trade.

As a contributing designer, I created:

- **"Manufacturing" Page:** Visualized the "1+2+N" industrial framework.
- **"Gastronomy" Page:** Narrative mapping of Intangible Cultural Heritage food.

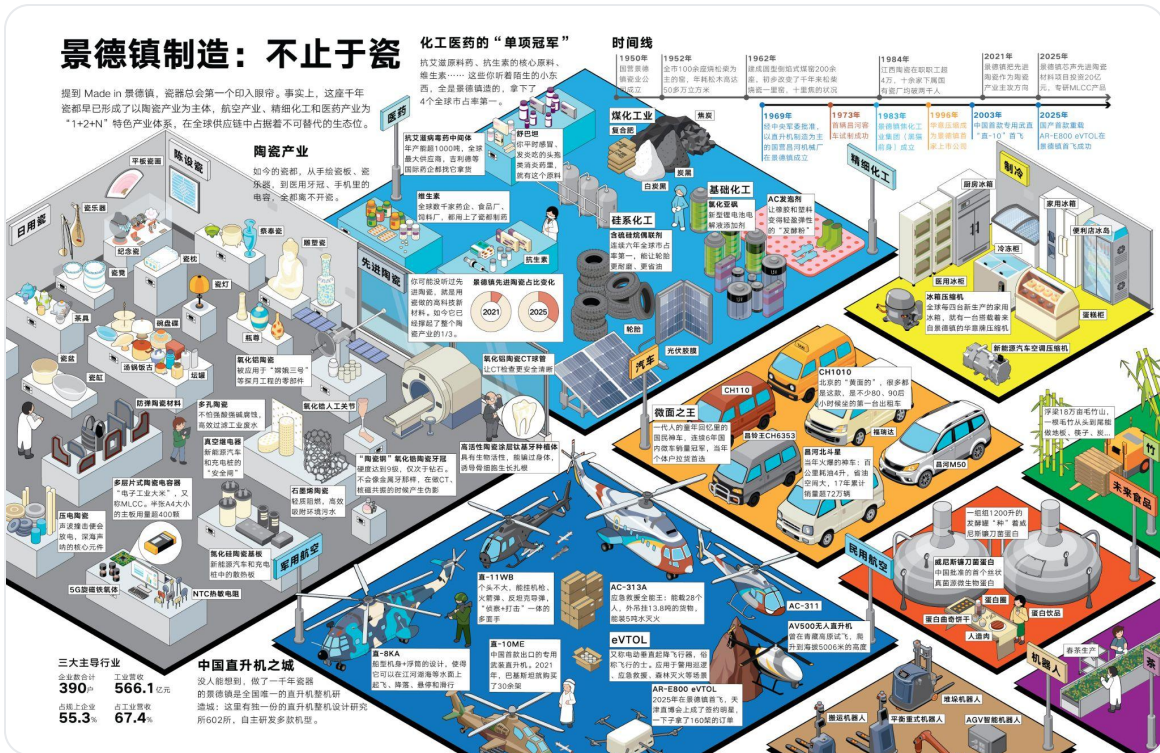

Jingdezhen Manufacturing: Beyond Ceramics

Overview

Jingdezhen has built a "1+2+N" industrial ecosystem, driven by ceramics, aviation, fine chemicals, and pharmaceuticals, securing an irreplaceable niche in the global supply chain.

Key Industrial Metrics

- Total Enterprises: 390
- Industrial Revenue: 56.61B RMB
- Share of Above-scale Enterprises: 55.3%
- Share of Industrial Revenue: 67.4%

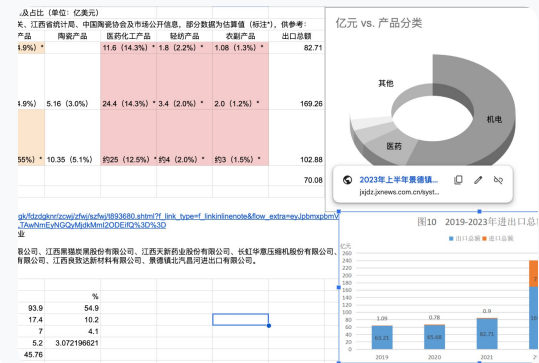

Research & Logic: Methodology

The Raw Data

Data Aggregation

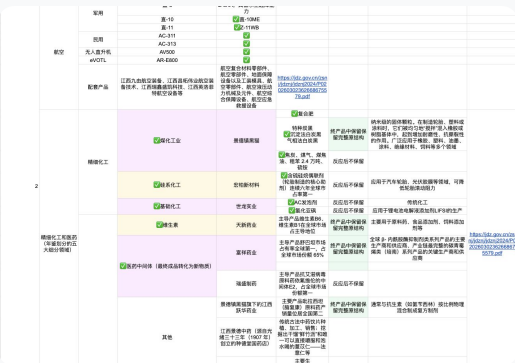

Comprehensive mapping of industrial clusters and enterprise distributions in Jingdezhen, serving as the foundational logic for visual synthesis.

Decoding "1+2+N"

Framework Logic

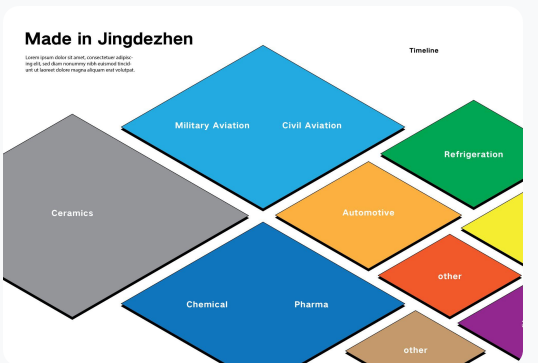

The analytical bridge connects raw statistical data to a spatial framework, identifying the core "Ceramics" + 2 leading + N specialized sectors.

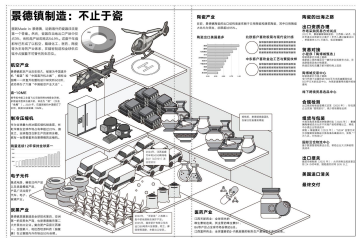

The Visual Base

Visual Synthesis

The final geometric abstraction that translates industrial hierarchies into a legible, multi-layered information landscape.

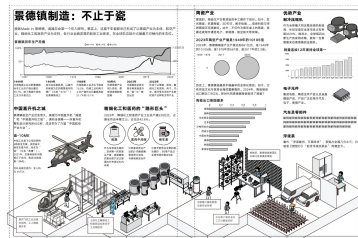

Iterative Process

Version 1

Lacked Semantic Mapping

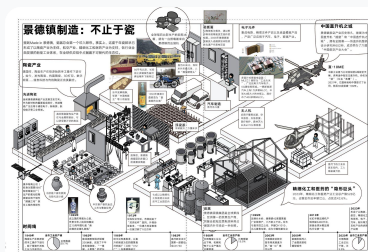

The vertical tiers didn't logically represent the different industrial sectors.

Version 2

Poor Data-to-Ink Ratio

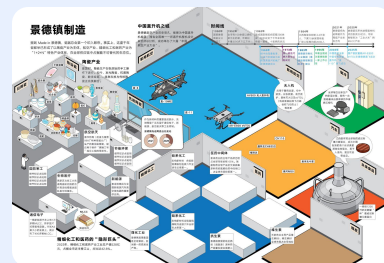

The version was rejected due to an imbalanced data-to-ink ratio.

Version 3

Low Information Density

A fragmented layout that failed to reflect the complexity of the "1+2+N" industrial framework.

Version 4

Final Layout

Chemical & Pharma "Hidden Champions"

Jingdezhen is a global powerhouse for anti-HIV drugs, antibiotics, and vitamins.

Ceramics Industry

In today's Porcelain Capital, ceramics are indispensable—found in everything from panels to medical dental crowns.

Advanced Ceramics

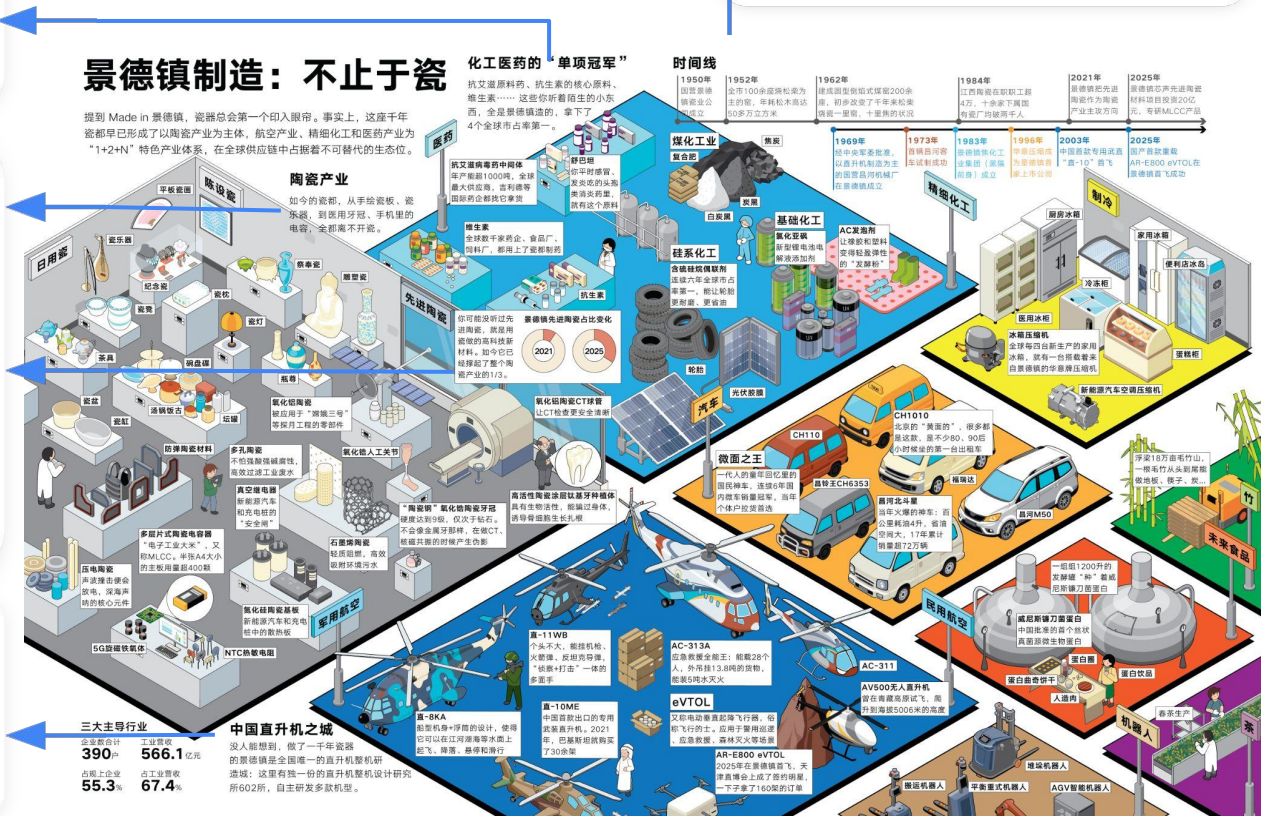

Analyzing the share and trend of advanced ceramic materials in Jingdezhen.

景德镇制造：不止于瓷

提到 Made in 景德镇，瓷器总会第一个映入眼帘。事实上，这座千年瓷都早已形成了以陶瓷产业为主体，航空产业、精细化工和医药产业为“1+2+N”特色产业体系，在全球供应链中占据着不可替代的生态位。

陶瓷产业

如今的瓷都，从手绘瓷板、瓷东瓷，到医用牙冠、手机里的电容，全都离不开瓷。

化工医药的“单项冠军”

艾迪原料药、抗生素的核心原料、维生素……这些你听惯的小东西，全是景德镇造的，拿下了4个全球市占率第一。

中国直升机之城

没人能想到，做了一千年瓷器的景德镇是全国唯一的直升机整机研制基地：这里有独一无二的直升机整机设计研究所602所，自主研发多款机型。
